## PROFESSIONAL EXPERIENCE

### ICICI Bank

#### Manager, Technology Risk Management

Nov 2023 – Present

- Spearheaded Segregation of Duties (SoD) conflict identification and remediation across critical IT functions, reducing audit observations and strengthening governance frameworks.
- Executed Role-Based Access Control (RBAC) evaluations, mapping access rights against defined control matrices to enforce least-privilege principles and eliminate privilege creep.
- Conducted deep-dive analysis of firewall rules and change management data, uncovering critical vulnerabilities and recommending corrective actions adopted by IT leadership.
- Delivered risk assessment reports to IT Steering Committees (CTO-level), directly influencing enterprise-wide risk mitigation strategies.
- Performed RCSA across IT Asset Management, Network, and Project Management functions, improving control effectiveness and enhancing risk visibility.
- Identified and remediated toxic access combinations through inter-role and intra-role conflict analysis, reducing potential risk exposure and strengthening internal control frameworks.
- Collaborated with IT, Internal Audit, and Business teams to validate role conflicts and implement mitigation controls, including role redesign and compensating controls.
- Managed team action tracker — ensuring timely closure of risk items, stakeholder alignment, and accurate reporting to senior management.
