SUMMARY

Enthusiastic AI/ML Engineer with a B.Tech in Artificial Intelligence and strong hands-on project experience in machine learning, NLP, and financial data applications. Proficient in Python and skilled in building end-to-end AI solutions using tools like XGBoost, SHAP, Streamlit, and APIs such as OpenAI and Yahoo Finance. Developed AI-powered assistants and fraud detection systems with a focus on usability, explainability, and performance. Eager to contribute to real-world AI projects, learn from experienced teams, and grow as a problem-solver in a dynamic tech environment.

SKILLS

- **Technical Skills:** HTML/CSS , JavaScript , ReactJS , Python , C , C++ , SQL , Prompt Engineering , Amazon Web Service(AWS) , Shell Scripting .
 - **Soft Skills:** Organized , Communicative , Detail-oriented , Multitasker , Financially adept.
 - **Operating Systems:** Linux (Mint, Fedora, Ubuntu), Windows .
 - **Languages:** English , Hindi , Marathi , Japanese(Proficient).
 - **APIs :** Yahoo Finance API , OpenAI API , Alpha Vantage API , Groq API
 - **Tools:** Git , JIRA , Streamlit , Wifite , XGBoost , SHAP , Raspberry Pi .
-

PROJECTS

1. Credit Card Fraud Detection : [\(Here\)](#).

- Built a fraud detection system using XGBoost with SMOTE to handle imbalanced data on Kaggle's transaction dataset
- Achieved high accuracy and ROC-AUC while minimizing false positives
- Applied SHAP for model interpretability and deployed .
- Achieved 100% Accuracy

2. Finndy : [\(Here\)](#).

- Designed and implemented FINDDY, an AI-powered finance chatbot using Yahoo Finance API and OpenAI API for real-time stock data and technical analysis (SMA, EMA, RSI, MACD).
- Created an intuitive Streamlit user interface for seamless interaction and graphical analysis of stock price trends over the past year.
- Addressed API rate-limit issues by implementing advanced caching and error-handling mechanisms.
- Improved performance and user retention by 20% through optimized API handling and enhanced user experience.

3. Financial Buddy :

- Prepared Financial Buddy, an AI-based virtual assistant to help users manage personal finances, set budgets, track expenses, and make informed credit and investment decisions.
- Implemented personalized recommendations using AI-driven algorithms and financial forecasting models, enhancing users' financial literacy by 35%.
- Integrated secure data handling and user authentication features to ensure privacy and safety.
- Enhanced user experience by providing tailored financial insights and improving ease of financial management.

4. PeacePal AI : [\(Here\)](#).

- Developed a conversational mental health chatbot using Streamlit and Groq's LLaMA-3 model for safe, supportive AI interactions.
- Integrated voice and text input with speech recognition for a multi-modal user experience.
- Implemented real-time response generation, session memory, and user-friendly UI.
- Focused on delivering empathetic responses while encouraging professional consultation.

5. Coding CoPilot : [\(Here\)](#).

- Built an intelligent coding assistant using Groq's LLaMA-3 model, featuring an immersive and responsive UI.
 - Enabled advanced capabilities including code suggestions, debugging, explanations, and test case generation.
 - Integrated voice input, text-to-speech (TTS), and chat memory for a seamless multi-modal experience.
 - Implemented UI enhancements like light/dark mode toggle for better user accessibility.
-

WORK EXPERIENCE

Software Testing Assistant

23 Aug 2021 - 23 Sep 2021

IDigiCloud, Mumbai

- Served as Team Assistant in the company for process improvment.
- Conducted in-depth research on industry trends and operational efficiencies, delivering actionable insights that addressed the top three challenges impacting process improvement initiatives within a five-week timeframe

AI Research Intern

10 May 2025 - Oct 2025

Coding Jr, Uttar Pradesh

- Researched emerging AI trends and technologies to support innovative development.
- Built and tested AI models for experimental and applied use cases.
- Collaborated on optimizing model performance and contributing to ongoing R&D efforts.

Graduate Trainee

15 Jan 2025- 14 July

FoodYaari Pvt.Ltd, Ahmednagar.

- Conducted nationwide data research on food-related academic institutions and implemented AWS SES for bulk email automation to support Foodyaari's outreach. Contributed to web security assessments and streamlined data validation processes using Excel and cloud tools.
- Developed full Fledged working website by using reactjs , html , css .

Sales & Marketting

21 Dec 2024 - Present

P.P Enterprises, Mumbai

- Led the end-to-end coordination of jewelry orders between client companies and manufacturing partners.
- Drove business growth by managing sourcing, pricing, and timely delivery to meet client expectations.
- Built strong vendor and client relationships, ensuring efficient order fulfillment and repeat business.
- Gained practical experience in B2B sales, supply chain operations, and strategic negotiation

EDUCATION

• Secondary (X), Maharashtra State Board Of Secondary And Higher Secondary Education

Parle Tilak Vidyalaya English Medium School .
Percentage - 86 %

Aug 2018 - May 2019

• Senior Secondary (XII), Maharashtra State Board Of Secondary And Higher Secondary Education

Vidya Bhavan's College Of Science ,Commerce and Arts .
Percentage - 86 %

Aug 2019 - May 2021

• B.Tech, Artificial Intelligence

G.H. Raisonni College of Engineering and Management, Pune
Relevant Coursework: Machine Learning, Data Mining, Deep Learning, Cybersecurity
CGPA: 6.78 / 10

Dec 2021 - June 2025

CERTIFICATIONS

- Advanced Data Analytics with Python (Udemy)
- Python3 Programming (Udemy)
- AWS - Amazon Web Service (Udemy)
- TCM Security: Linux 100
- TCM Security: Programming 100
- Artificial Intelligence in Web Design
- Participant in Smart India Hackathon
- Data Mining in Data Science and Machine Learning (Udemy)

NPTEL

- Joy of Computing using Python .
Percentage - 78%
- Enhancing Soft Skill and Personality.
